As per many other manufacturers, BMW has produced automotive petrol/gasoline engines in the following layouts: inline-four (straight four) and V8. BMW is also well known for its history of straight-six (inline-six) engines (instead of the V6 layout, which has replaced the straight-six layout for most other manufacturers). The former model came in different guises such as the BMW marine D150, D190 and D636. The later was known as the D530. BMW D190 Marine Diesel Engine. The popular belief is that the VM Motori HR range of engines were designed primarily for marine use and were adapted for automotive and industrial use.
